

How to Provide Feedback

Tell the research team what worked, what was confusing, or what information should be corrected.

Tap **More** in the bottom bar > **Give feedback**

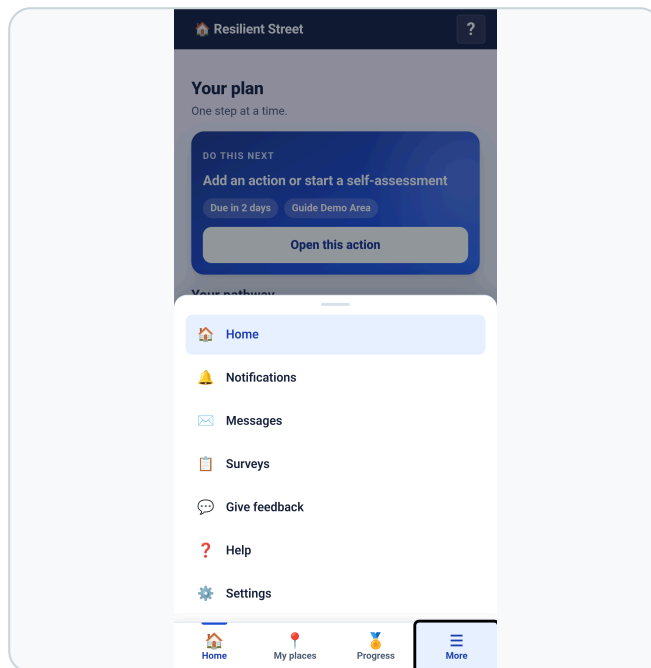

Send feedback from anywhere

1. Tap **More** in the bar at the bottom of the screen.
2. Tap **Give feedback**.
3. Complete the feedback survey shown inside the app.
4. Submit the survey. Use **Close** if you need to return without finishing.

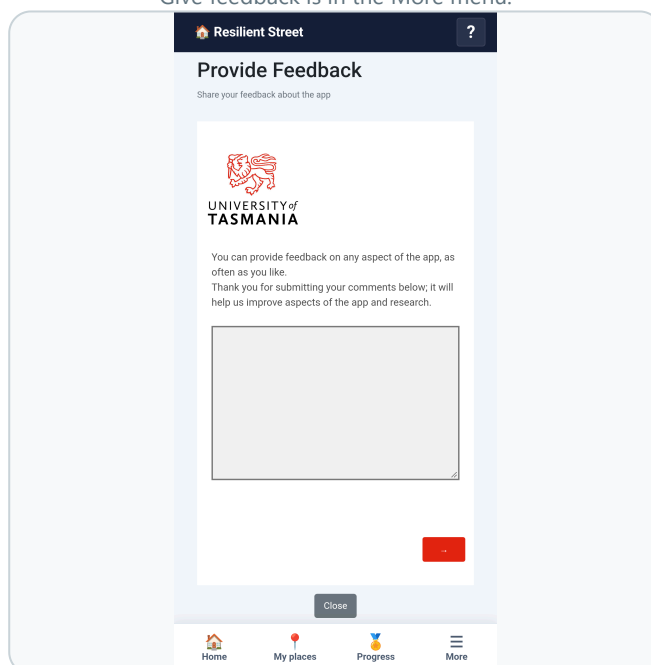

Report map information

When viewing a nearby place on the map, scroll to its details and tap the **Provide Feedback** link. Use it to report missing or incorrect details.

Helpful feedback includes: the screen or feature you were using, what you expected, what happened, and any suggestion that would improve it.

Give feedback is in the More menu.

Complete and submit the survey inside the app.
